

CSc 4222/6222 – Spring 2020

Security Related News Article Presentation

Overview:

- You will work in groups of two for this assignment. Each day noted, we will have two presentations.
- Select a security related story that you have found in the news.
- Sign up on the [google form](#) to select your presentation date, news item and security topic.
- There should be no duplicate news items selected and avoid duplicating security topics.
- This should go without saying, but just in case, do NOT overwrite someone else's choices.
- Try to find a unique story, one that the class should find interesting and engaging.
- Prepare a 5 minute presentation with slides. Have the slides on a USB, so they can be accessed quickly. The 5 minutes is a hard time limit.
- What to include on your slides:
 - Title slide – Presentation title, both students' names, and citation for news article
 - Summary of the news story
 - Summary of the techniques used
 - Impact of the attack
 - Summary of the recovery
 - Questions to engage the class

Important dates:

- Sign up should be completed by **Monday, February 3rd**. The [google form](#) will be locked at that point.
- Submit your slides, via iCollege, prior to the class time on the date of your presentation. Do not alter your slides after this point, otherwise they will not be graded. **Both** students should submit the set of slides.

Assessment criteria:

- Topic/article selection on google form
- Relevance of the story to the class
- The depth of thinking on your chosen story – your insight/contribution
- Quality of the slides
- Organization and preparation
- Timing
- Engagement of the class
